REPORT FROM THE CHILEANS

The Leamington Chilean Refugee Committee, recently formed, seeks your help.

Your help can be anything which doesn't work or isn't well : clothes, shoes, etc, etc. All this will go to help the thousands of people, mostly children, who at this time are suffering the terrible consequences of total malnutrition from the lack of, or from bad, feed; lack of adequate clothing to support the winter, bringing with it illness and death. All this is due to the lack of employment, buying power, and the basic articles of life.

Many industries have closed their doors, others are working half-time, and others pay the minimum salary to their workers who are affected by this critical situation :

"HARDLY SURVIVING"

is a recent pronouncement made by the National Federation of Textile Workers in a meeting with foreign journalists, making known the precarious situation of this union; that 50% of their industries were shut down, and that 80% of the workers receive an average salary of £2 a month.

For them and for the thousands who are in the same situation, for the thousands of their children, we seek your help.

THANK YOU FOR YOUR GENEROSITY.
