Britain is Pinochet's only ally

- * Even the U.S., who engineered the bloody coup in 1973 that brought Pinochet to power, has called for a return to democracy.
- * BRITAIN continues to help keep Pinochet in power, torturing and killing his people, even though the vast majority of Chileans have made clear their desire to get rid of him and restore democracy.
- * BRITAIN has supplied Pinochet's junta with nuclear fuel and technology, Hawker Hunter and Canberra jets, warships, and naval electronics.
- * BRITAIN has lobbied on Pinochet's behalf in the United Nations and the I.M.F.
- * BRITAIN has invited junta members to London for talks - and has refused to condemn the repression and recent killings by the junta.

NOW, BRITAIN IS SELLING GUIDED MISSILE DESTROYER HMS ANTRIM (equipped with Exocet missiles), ADVANCED JAGUAR JET FIGHTERS and SEA EAGLE MISSILES.
