THE CHILEAN COUP

The movement of the Chilean workers for Socialism has been thrown back by armed counter-revolution. How can the workers fight back? What are the lessons of Allende's popular front government? What aid can the workers of Britain and the world give?

The lessons of Chile have a burning international relevance for all workers. Is every move to improve workers conditions likely to improve workers conditions likely to be confronted by fascist mobilisation, military repression, strikes of capital and civil war? How should the workers counter the bosses?

FOR THE SOCIALIST REVOLUTION !

FOR AN ARMED WORKERS STRUGGLE !
