With

On behalf of the trade union Klubben ved A/S Norsk Jernverk I would like to present to You the case of the Chilean political prisoners, Diana Maria Duhalde and Isidro Liendo. These prisoners were arrested by Chilean authorities on 7. dec. 1977 in Santiago, and has since been disappeared. Their families has not been able to obtain informations about the place of detention or what had happened to them.

We have turned to Norwegian and Chilean authorities to obtain information on the situation for the prisoners. Now we appeal to Your organisation as well, to demand information and the release of the prisoners.

We believe that it is utmost importance that the international community condemn the abuses against human rights and Chilean law taking place in Chile today.

Yours sincerely,  
Klubben Ved A/S Norsk Jernverk.
