Geneva

Dear Comrade,

The General Secretariat of Jordan Trade Unions with its working class, present their best fraternal regards, wishing you every success and progress in the service of the World working class.

Since a short period the Pinocet dictatorship has taken a new repression procedures against the Chilean People, political parties and Unionist leaders. The Dina have arrested many persons from their houses, factories, schools and Universities and then they have disappeared the some of 2.500 persons, and no one knows anything about them till now, and even the place of their detention, and this has been done on December last, adding more crimes to the previous ones, taking no care the respect of Human right, and the resolutions of the Un General Assembly and UN human rights commission. Although their families have applied several applications, also from the Catholic organizations of solidarity.

In the name of the General Secretariat of Jordan Trade Unions with its working class denounce these deeds, and ignore these actions crimes against the human right, and their oppression towards the Trade Unions forces in Chile. We ask you for an immediate intervene, in order to save the lives of those leaders prisoners, and to perform a special Commission as soon as possible to travel to Chile to invistigate the truths and to release those prisoners, which they are still on the hands of the Fascist Military Junta. Hoping from you to urge to this matter for saving their lives.

Please accept our cordial greetings.

Yours faithfully,

Fathi Najji Awad  
General Secretary
